## **CATALOGUE 2019**

# ABOUT

## THE SUSTAINABLE DESIGNER SOLUTION FOR THE BULK SALE OF YOUR DRY PRODUCTS.

Don't want to compromise on the quality of the products you're selling? Opt for global consistency within your store by choosing Zero Waste Dispenser, designed in stainless steel and glass. Thanks to our dispensers' elegant and refined look, your store will gain in character by highlighting your products and attracting quality-seeking clients.

## SUSTAINABLE MATERIALS: STAINLESS STEEL AND GLASS

Did you know that our dispensers have a longer lifespan than we do? The materials they are made of are so durable that they can resist to shocks and time.

**HIGHLY  
RESISTANT**

## DROP, THE HANGING MODEL

Drop dispensers are compatible with a very wide range of products:

- Legumes (lentils, beans, chickpeas, split peas, soybeans, ...)
- Pasta
- Cereals (rice, couscous, bulgur, quinoa, barley, millet, kamut, ...)
- Oilseeds (walnuts, hazelnuts, peanuts, almonds, pistachios, cashews)
- Cracker mixes
- Muesli
- Breakfast mixes
- Breakfast cereals
- Granola
- Coffee beans
- Seeds (squash, sunflower, chia, flax, ...)

# PRODUCTS

**Tare weight:** 7 kg  
**Capacity:** 12,5 litres  
**Width:** 150 mm  
**Height:** 492 mm  
**Depth:** 381 mm

*The dimensions given here above are Drop's standard size. We also offer your dispenser in customised sizes.*

## EASY TO USE

Our dispensers are completely mechanical. The customer helps himself by simply setting off the lever. The dispenser can be filled from the top, by lifting the cover and pouring the de-sired content. There is also ample space on the label-holder at the front of the dispenser to show all the product's necessary details or relevant sales information. As for example, you could give cooking instructions or recipe ideas to highlight a lesser-known product.

## EASY TO CLEAN

Cleaning can be easily performed by hand. Furthermore, the dispensers are dishwasher safe; simply disassemble their elements and place them separately in the washing appliance.

# NEW FORMAT AVAILABLE SOON!

## DIG, THE COUNTER MODEL

Ideal for sticky products (dates, raisins, caramelised pistachios, thyme gums, ...) or milled products (flour, salt, shredded coconut, ...), Dig is handled with scoops or kitchen tongs.

3 possible configurations:

- single product
- two products 1/2 + 1/2
- two products 1/3 + 2/3

# ADVANTAGES

Quentin Verstappen, founder.

## 100% MADE IN BELGIUM

Zero Waste Dispenser designs and develops its products alongside highly qualified Belgian collaborators.

## WHY CHOOSE ZERO WASTE DISPENSER?

### See your zero waste commitments through

Staying globally consistent in your waste reduction approach, all the way to shop fitting, is now possible! Say no to plastic and earn the trust of an increasingly demanding customer base.

The stainless steel and glass's strength guarantees long-lasting use without any alteration, an investment that is part of a logic of sustainability and waste reduction.

### Inert materials for quality food

None of our bulk dispensers contain any plastic. Made entirely of stainless steel and glass, there is no risk of food contamination whatsoever. **Opting for Zero Waste Dispenser** means being ahead of food regulations.
